Ivy Tech Community College  
2021 - 2023

DOMINICK FORD

Level 2-3 Field Technician | Material Painter/Handler | Web/Game Developer

About me

I am a dedicated and passionate IT professional with extensive experience in field service, technical support, and software development. With years of hands-on experience in IT, coding, 3D modeling, photo editing, and troubleshooting, I have honed my problem-solving skills through both professional work and personal projects. My background includes college-level IT coursework, field technician experience, and a lifelong passion for technology. Beyond IT, I enjoy learning and working with various trades, including woodworking, metalworking, and welding. I have experience operating and maintaining machines, and I thrive in hands-on environments. Additionally, I contribute as a volunteer developer for a game server, expanding my skills in software development and teamwork. My drive to continuously learn and adapt makes me a valuable asset in any technical role.

Work experience

- Global Field Service Technician Level 2-3** Jun 2024 - Current  
**MTI - Mobile Technologies Inc**
